I live in Colorado, Security Water District, zip code 80911. We have been told that our water contains PFOA and PFOS, but they claim that it is safe. I want safe water. After the huge mine spill here in Colorado, and with the Flint, Michigan issue, I need information. I live here, I do not want to pay for the information, and shouldn't have too. Right now I rely on my water department, and all they care about is raising our rates to join the Southern Delivery System. Last increase was 14% in January, even with our issue of water safety. Something isn't right. Thank you.
